Neurotransmitter and Dementia (Journal of Neural Transmission. Supplementa)

Neurotransmitter and Dementia (Journal of Neural Transmission. Supplementa)

Neurotransmitter changes taking place in the brain of patients with dementia disorders, mainly Alzheimer type dementia, are reported. Their role in the pathogenesis of Alzheimer's disease is discussed; and the neurochemical changes are considered as a base for formulating treatment strategies. By studying markers in the cerebrospinal fluid, diagnostic methods may be achieved that will aid in diagnosing subgroups of dementia.
