Preparing for the New SAT: Mathematics - Student Edition Joyce Bernstein, Richard J Andres

Students will review and master problem solving, modeling, and algebraic structure for success on the math portion of the new 2016 SAT test. Scaffolded coverage of the topics, as well as insights, strategies, and critical thinking skills specific to the redesigned SAT are presented in this new student-friendly book. It provides a complete review and comprehensive practice of each category featuring: Heart of Algebra, Problem Solving and Data Analysis, Passport to Advanced Math, and Additional Topics in Math. The text provides a full-length diagnostic test, concise review of mathematics targeted to the new redesigned SAT and four full-length SAT-type practice exams for each of the four categories. Each question has a complete solution explanation with embedded solution strategies.
