## **Women in War: From Home Front to Front Line** Celia Lee, Paul Strong

The changing role of women in warfare, a neglected aspect of military history, is the subject of this collection of perceptive, thought-provoking essays. By looking at the wide range of ways in which women have become involved in all the aspects of war, the authors open up this fascinating topic to wider understanding and debate. The discuss how, particularly in the two world wars, women have been increasingly mobilized in all the armed services, originally as support staff, then in defensive combat roles. They also consider the tragic story of women as victims of male violence, and how women have often put up a heroic resistance, and examine how women have been drawn into direct combat roles on an unprecedented level, a trend that is still controversial in the present day. The collection brings together the work of noted academics and historians with the wartime experiences of women who have remarkable personal stories to tell. The book will be a milestone in the study of the recent history of the parts women have played in the history of warfare.
