Encyclopedia of Homosexuality: Volume II (Routledge Revivals: Encyclopedia of Homosexuality)

First published in 1990, *The Encyclopedia of Homosexuality* brings together a collection of outstanding articles that were, at the time of this book's original publication, classic, pioneering, and recent. Together, the two volumes provide scholarship on male and female homosexuality and bisexuality, and, reaching beyond questions of physical sexuality, they examine the effects of homophilia and homophobia on literature, art, religion, science, law, philosophy, society, and history. Many of the writings were considered to be controversial, and often contradictory, at that time, and refer to issues and difficulties that still exist today.

This volume contains entries from M-Z.
