This volume presents an array of creative, analytic and research work presented by students of the Popular Culture and German Literature: Science Fiction sections of the academic year 2013-2014 at the Ohio State University. This course has been evolving over the past 5 years into a highly experimental and experiential classroom that augments lectures with literary and film analysis in order to further student's critical potential. Students work with concept building, social and historical background and cultural recognition, as well as psychological analyses of texts that conclude with the creative synthesis and the committal of the day's activities to long-term memory through journaling and discussion.
