At the Origins of Modern Atheism

Michael J. Buckley

At the Origins of Modern Atheism Michael J. Buckley

In this book, Michael J. Buckley investigates the rise of modern atheism, arguing convincingly that its roots reach back to the seventeenth century, when Catholic theologians began to call upon philosophy and science—rather than any intrinsically religious experience—to defend the existence of god. Buckley discusses in detail thinkers such as Lessius, Mersenne, Descartes, and Newton, who paved the way for the explicit atheism of Diderot and D'Holbach in the eighteenth century. "[A] capacious learned and brilliantly written book.... This is one of the most interesting and closely argued works on theology that I have read in the last decade."—Lawrence S. Cunningham, *Theology Today*
