Mastering Multiplication Tables & Mastering Division Facts Bundle: fun games and activities to play with your child Chris James

fun games and activities to play with your child

Learning your multiplication tables and division facts can often be difficult. Teaching them to your child can be harder still. These two book guide you through the process of teaching your child in a fun and interesting way, and provide a series of worksheets for them to practice what they have learnt under test conditions. You will initially learn how to teach your child how to understand and learn the times tables and division facts through a combination of hands on and visual techniques. Once they have grasped an understanding of each set of number facts, there is a series of games to play to help them to reinforce what they have learnt. Some of these games require little or no preparation, while there is a link at the end of the book to a series of printable resources that are required to play the others

There are also sets of questions on each of the times tables and division facts included with the downloadable resources, so that you can check that your child can recall the facts in a test situation. Once this stage has been completed your child should have a secure understanding of their multiplication and division facts and be able to use them confidently.

Who am I?

I am a fully qualified Elementary (Primary) Teacher with over 20 years of experience and a math specialist. All of the techniques and activities in this book are ones that I use in the classroom. Children enjoy them and I know that they work.
