Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science)

From the Preface:

This festschrift is devoted to recognize the career of a man who not only witnessed the growth of operations research from its inception, but also contributed significantly to this growth. Dr. Salah E. Elmaghraby received his doctorate degree from Cornell University in 1958, and since then, his scholarly contributions have enriched the fields of production planning and scheduling and project scheduling. This collection of papers is contributed in his honor by his students, colleagues, and acquaintances. It offers a tribute to the inspiration received from his work, and from his guidance and advice over the years, and recognizes the legacy of his many contributions.

Dr. Elmaghraby is a pioneer in the area of project scheduling (in particular, project planning and control through network models, for which he coined the term 'activity networks'.) In his initial work in this area, he developed an algebra based on signal flow graphs and semi-Markov processes for analyzing generalized activity networks involving activities with probabilistic durations. This work led to the development of what was later known as the Graphical Evaluation and Review Technique (GERT), and GERT simulation models. He has made fundamental contributions in determining criticality indices for activities, in developing methodologies for project compression and time/cost analysis, and in the use of stochastic and chance-constrained programming and Petri Nets for the analysis of activity networks.

This volume brings together fourteen contributions, which can be viewed under the following three main themes: operations research and its application in production planning; project scheduling, and production scheduling, inspired by, and in many cases based on, Dr. Elmaghraby's work in these areas. The first five chapters are devoted to the first theme, followed by four chapters each devoted to the other two, respectively. An additional chapter is devoted to the vulnerability of multimodal freight systems.

Download and Read Free Online Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science)

From reader reviews:

Treva Ritter:

The guide untitled Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science) is the guide that recommended to you to study. You can see the quality of the reserve content that will be shown to you actually. The language that article author use to explained their ideas are easily to understand. The writer was did a lot of analysis when write the book, and so the information that they share for your requirements is absolutely accurate. You also will get the e-book of Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science) from the publisher to make you far more enjoy free time.

Bridgett Killion:

Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science) can be one of your starter books that are good idea. Many of us recommend that straight away because this book has good vocabulary which could increase your knowledge in terminology, easy to understand, bit entertaining but delivering the information. The writer giving his/her effort to set every word into delight arrangement in writing Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science) nevertheless doesn't forget the main stage, giving the reader the hottest as well as based confirm resource facts that maybe you can be considered one of it. This great information can easily drawn you into fresh stage of crucial thinking.

Martina Lassiter:

The book untitled Essays in Production, Project Planning and Scheduling: A Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science) contain a lot of information on the idea. The writer explains your girlfriend idea with easy way. The language is very clear and understandable all the people, so do not worry, you can easy to read that. The book was published by famous author. The author gives you in the new period of literary works. You can easily read this book because you can read more your smart phone, or model, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can start their official web-site in addition to order it. Have a nice go through.

Emily Ferrell:

As we know that book is important thing to add our understanding for everything. By a publication we can know everything we would like. A book is a list of written, printed, illustrated or perhaps blank sheet. Every year ended up being exactly added. This reserve Essays in Production, Project Planning and Scheduling: A

Festschrift in Honor of Salah Elmaghraby (International Series in Operations Research & Management Science) was filled concerning science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has different feel when they reading a book. If you know how big benefit of a book, you can sense enjoy to read a guide. In the modern era like right now, many ways to get book that you wanted.
