Five Times Five Is Not Ten: Make Multiplication Easy

Susan R. Greenwald, M.A. Ed.

Five Times Five Is Not Ten: Make Multiplication Easy Susan R. Greenwald, M.A. Ed.

Children need to memorize multiplication facts! This reproducible workbook was listed in Learning Magazine as a Resource for Successful Teaching! (January 2009) Parents and teachers can use this workbook to teach children in any grade level.

This practice book is different because children will learn strategies such as *4 Fingers* which teaches the 4's facts based on doubles, and *Pretend to Add* which makes the 9's in multiplication so easy to learn.

Included: 147 written practice pages, how to use the book, a guide to introducing the facts, record-keeping pages and a certificate of mastery.

Students will see that they can be successful in completing pages without counting on fingers or using a chart.

Students must memorize math facts otherwise they will struggle with more advanced math.
